## ARTICLE INFO

## Article history:

Received 27 August 2008

Available online 18 September 2008

The quoted values for the half-lives of the isomeric states in  $^{82}\text{Nb}$  and  $^{86}\text{Tc}$  are the values of the mean lifetimes of these states. The correct half-lives are  $T_{1/2} = 93(17)$  ns for the (1180) keV state in  $^{82}\text{Nb}$  and  $T_{1/2} = 1.10(14)$   $\mu\text{s}$  for the (1524) keV state in  $^{86}\text{Tc}$ . All other values quoted or discussed in the article were calculated correctly and are not affected by this typographical error.
